WANTS HIS CHILD.

Habeas Corpus Petition Brought Here for Recovery of a Child.

The Supreme Court Judges were in demand today. Chief Justice Furches tried the case of the gold brick swindlers in Statesville to see if their bond was excessive, and Justice Douglas, of this city, heard a habeas corpus petition. The latter petition was brought by a white man of this city, G. W. Mills by name, for the possession of his child. The case was continued until Wednesday at 11 o'clock.

Anent habeas corpus petitions, this is the last time that the gold brickers will get a whack at such proceedings. If they fail this time, they are done for.

Proximity Notes.

Messrs. L. A. Henley and J. H. Winn have left for a trip visiting some of the larger northern cities and while away will take in the Buffalo Exposition, and a short tour through Canada. Mr. Henly is overseer in the weaving room, and Mr. Winn of the Dye House of the Proximity mills.

Mr. Henry Hicks is now running an ice wagon regularly through all the streets, which is a great conveninece to the people of this place.

Mr. J. D. Campell has returned from a week's vacation which he has been spending at Gold Hill.

In a match game of base ball Saturday, between the Proximity and Greensboro team the former won with a score of 20 to 1 in five innnings.

One of the most interesting and pleasant social events of the season was a reception given Saturday evening at the residence of Mr. W. H. Maldin, by Mr. A. C. Moldin. The evening was much enjoyed by all present Delicious refreshments were served. About twenty-five couples were present.

Illicit Distillers Caught.

The revenue raiders caught two illicit distillers Saturday afternoon near McLeansville. They were brought to this city and were tried before Commissioner Wolfe Saturday night. Their names are Willis and John Holt. Willis was caught in the still house, and John in a wagon just outside with illicit liquor in the wagon. Willis was tried and sent to jail. The trial of the other man was postponed until Thursday, and he was released on bail.

Gone to Buffalo.

Prof. Albert Whitehouse, of Trinity College, Durham, left last week for Buffalo, N. Y., and will spend the summer there. He will open an office, and practice his profession as a health specialist.

The Board Meeting.

A session o fthe Board of Aldermen was held Saturday night to fix the license taxes. A portion of the work was acomplished, and the balance postponed until the adjourned meeting of the Board next Wednesday night.

GATTIS-KILGO DECISION.

The Finding of the Supreme Court in this Noted Case.

The decision of the Supreme Court in the case of Gattis vs. Kilgo is given below. It is taken from the columns of the Charlotte Observer:

One who appears in his own behalf or in behalf of another, is privileged to say, in the progress of the trial, anything in reference to the character or conduct of the oposing party that is revelant to the issue before the court, without recurring liability in an action of slander predicted upon the language used.

Upon the foregoing principle it is held that where the president of a college is on trial before the trustees of the institution as to his fitness for such position the trial having been brought by reason of certain charges preferred against his character and competency, his severe and caustic language in reference to the instigator of the charges if pertinent to the issue, is absolutely privileged, and the trustees have the right to publish the proceedings, including the language used by said president, for the purpose of giving to the public and the patrons of the college all the information concerning the whole matter which the investigation and trial may have brought out, provided the publication is made without malice.

In such case, the language complained of being a privileged communication, malice in the publication thereof cannot be in ferred from indifference as to its consequences to the plaintiff, and although the language as published may contain some expressions which go beyond what is necessary for the defence of the college, it does not follow that the publication affords evidence of malice which the plaintiff is entitled to have submitted to the jury.

When the facts are uncontroverted, it is for the cort to decide whether or not the publication is absolutely privileged, and if the court decides that the publication is privileged or conditionally privileged, then the question whether there is intrinsic or extrinsic evidence of malice is a matter of law to be determined by the court.

Before damage can be recovered by one, by reason of words spoken or published in reference to his profession or office, he must have been actually engaged in work of his profession or in the possession of the office at the time the words were spoken or written.

TO EXCLUDE M'LAURIN.

Executive Committee Decides Upon a Plan.

Columbia, S. C., June 17.—The plan to exclude Senator McLaurin from the Democratic primaries next summer has been decided on by the executive committee. The convention next May will amend the primary oath to include the recognition as party principles those included in the last Democratic national platform.

A JACK RABBIT RACE.

One May Be Arranged for During the Races Next Month.

Preparations for the races which will take place at the Fair Grounds, July 4th, 5th, and 6th, are going rapidly forward. Col. Horton, of Asheville, who has the meet in hand, is a hustler when it comes to horse racing, and he is thoroughly conversant with every detail necessary to the success of a meet. He has had large experience and is a well known figure in racing circles. The success which has attended his meets in other cities in the State, is a guarantee that the one which he will give here will be equally successful.

Between twenty and twenty-five horses are now at the track, getting in trim for the event, and lovers of the sport will have an opportunity of witnessing some fast trotting.

To vary the races Col. Horton has in other places, introduced a novelty in racing that of running jack rabbits, and this feature of the meets have met with public favor.

It is probably that a rabbit race will be arranged for the coming meet.

Be sure to go to St. Barnabas Rectory Wednesday evening, where the ladies will serve you with cream, ices, cake music and a pleasant time generally.

A SERIOUS AFFAIR.

The Strike at Newport News a Source of Uneasiness.

Newport News, Va., June 15.—The entire ship yard will shut down Monday evening at 6 o'clock.

This decision has been reached by the officials of the Newport News Ship-Building and Dry-Dock Company. General Superintendent Walter A. Post stated today that unless the machinists return to work Monday morning, or unless enough men report to carry on the great volume of work which has been lacking attention since the inauguration of the strike, the plant will close down without further delay, and will remain closed until sufficient men are secured to do the necessary work.

This step, which is no longer in doubt, will throw 7,000 men—the wage earners of Newport News—out of employment, and the result is awaited with feeling of anxiety and fear. The closing of the yard is sure to affect the general business interests, and, it is feared, cause great suffering.

Today over 700 more men were laid off because there was no work for them to do. The yard closed at noon for the usual Saturday half-holiday.

The company now holds contracts aggregating nearly $30,000,000, but it is protected by strike clauses in each.

President C. B. Orcutt, it is understood, has made arrangements to take the Illinois to one of the navy-yards for the finishing touches, if it is found necessary to close down Monday.

President E. J. Mulcahy, of the Machinists Union, stated today that as far as he knew there is not one man among the strikers who has held out thus far who will return to work Monday. This being the case, there can be but one result.

President Connell, of the International Association of Machinists, has wired that he is on the way here. He is expected to reach the city tomorrow or Monday, to give the strikers the benefit of his advice.

The special committee of the Business Men's Association, appointed to bring about arbitration, today made a report to the effect that all its efforts were futile, the striking machinists maintaining that their demands were just and proper, and the ship-yard being equally decided in the course it is pursuing in the matter.

MARTIN AND SWANSON.

Yesterday's Virginia Primaries Ensure Montague's Nomination for Governor—Fitz. Lee May be Senator.

Richmond, Va., June 15.—The result of todays' primaries assures the defeat of Congressman Swanson, Senator Martin's candidate for Governor.

From the beginning of what has proved the most interesting campaign known in Virginia for many years, it was seen that the defeat of Martin's candidate was certain. His opponent, Attorney General Montague, promptly made the issue before the people that this fight was on the continuance of Martin and the old ring in politics. He pointed out that Mr. Swanson was endorsel by Senators Daniel and Martin and seven out of the ten members of the House from this State. This aroused the people as they had not been before in years. They recalled how Martin had thrown Fitz. Lee down for the senatorship eight years ago. The result was, despite every combination effected, that county after county went for Montague and against Swanson and Martin's ideas. The ruling element endeavored to stem the tide by inducing Daniel to make a speech in Lynchburg, his home. Notwithstanding this appeal of Virginia's popular leader that city and county went against Daniel and Martin by four or five to one. Yesterday Isle of Wight, the home county of Col. Day, the father-in-law of Martin, and one of the first who by his acts aroused the people, went overwhelmingly against Swanson.

Today's returns show that in the southwest everything heard from has gone in the same way. Next week Albemarle, the home of Martin, will throw itself in the machine rule column. Not only do Swanson and his managers see what is in store for them, but the coming revolution is fully realized by Daniel and Martin. It is only a question now whether Fitz. Lee or Montague will be Senator Martin's successor. It may be that Lee will have restored to him the things that were his and which the people never intended should be bestowed upon another.

The disfranchisement of the negroes by constitutional convention now in session here, will remove all difficulties in the way of leaving a clear road for the coming revolution. The gubernatorial convention meets at Norfolk on August 14, when Montague will be nominated on the first ballot. Indeed the work is practically done now.

CAPTURES A CONVICT.

"Urusty" Catches an Escaping Convict and is Rewarded.

Richmond Dispatch.

The daring escape of three convicts, their thrilling capture after an exciting chase, the capture of one by a "trusty" at the risk of his life, and the immediate pardon of the "trusty" by the Governor, are events which are inseparably connected with the visit of his Excellency to the State Farm yesterday.

The incidents were dramatic in the extreme. The life of one man was changed from that of a convict to a free man, and not only so, but a hero who merited and received the thanks of the Governor of his State.

Governor Tyler went up to the farm yesterday morning on a tour of inspection. The exciting affair of the day occurred just upon the arrival of the distinguished party.

The men on the farm were at work at various parts of the place. The guards were each with his group of prisoners. The appearance of the visitors naturally attracted the attention of the guards. One guard, who had under him three negro men, was overpowered. His Winchester rifle was taken from him by one of the most daring of the three, and before the guards could recover from the surprise, all had taken to their heels. Then the hero of the occasion appeared on the scene. He was H. Quinsey Bailey, a white man of good family, sent to the penitentiary from Greensville county, convicted of manslaughter. He was a "trusty."

Bailey was at work at the tile kiln. He was the engineer. He easily took in all that had happened. He laid down his work and ran with a number of others to the capture of the fleeing men. He passed one of the guards in his pursuit. He asked the guard for his pistol, and the weapon was readily given him. The three men were making for the woods at a great pace. One of the three still had the rifle. Bailey picked out the one, and followed him with all his racing power. The others separated from him, and the race became one convict chased by another.

Bailey shot at the man in front of him several times but did not shoot to strike. The negro, either from fear, or from ignorance as to how to use a rifle, made no attempt to stop his pursuer with it. It was not long before the fleet-footed Bailey had caught up with the negro. Then he said to him: "Sit down here and let us blow awhile. I am about of breath, and you seem to be, also."

They rested for some minutes, and then the two went back to the house. The Governor met them, and so did the others of the party. The Governor was equal to the occasion. He thanked Bailey for his faithfulness, and praised his bravery and prompt action. He did more; he ordered his immediate release. He 'phoned to his office here in Richmond and instructed that the papers which conveyed the pardon of the man should be made out and brought down to the train for him to sign as soon as he got there. This was done. Bailey was brought down on the train with the party, and at the depot here the Governor affixed his signature to the paper, which made Bailey as free as any man in the Commonwealth. He was dressed then in a new suit of clothes. He will remain in the city until today, when he goes to his home in Greensville.

Bailey was sent to the penitentiary in April. His term was one year. He and another were fighting. In trying to wrest a pistol from the other man, Bailey discharged it, and a by-stander was killed.

Mr. Tatum, who has charge of the farm, and several guards caught the other two negroes, with the aid of blood-hounds, after an exciting chase.

North Carolinian in Philadelphia.

Raleigh Post.

North Carolina is well represented at the Southern Industrial Convention which is in session in Philadelphia, and the delegates from this state are taking a prominent part in the deliberations of the body.

Yesterday's North American contains likenesses of Mr. John W. Thompson by Walt McDougall, the well known cartoonist. Mr. Thompson is referred to as judge, and here is what the American says of him:

"Judge Thompson is the giant of the convention. He is 6 feet 4 inches tall and weighs nearly 400 pounds. He was former Immigrant Commissioner at Raleigh, N. C., and has held other important positions. In spite of his ponderous physique, he is one of the most nimblewitted of the Southerners who have captured Philadelphia. He is a direct, forcible speaker and one of the most wide-awake business men of the South. Walt McDaugall's attempt to picture Judge Thomson on a 5x7 pad failed, but he hurried to the North American office, obtained a sketching block, 14x28, and, returning, accomplished his fell design."

FALSE REPORT.

It has been reported over town that we are going to leave Greensboro. We desire to impress on the minds of one and all the fact that we are not going to move from the city, but have moved to rooms over J. M. Hendrix & Co's. store, 225 South Elm street and will devote our entire time to the eye and proper correction of all optical defects. We are better prepared than ever to give strictly first class services to all having eye troubles, or headache due to refractive errors.

Respectfully,

DRS. R. L. MOORE & R. W. WOODWARD.

Successors to Drs. R. L. and E. H. Moore.

The Skin AN INDEX TO THE BLOOD

Millions of little glands or tubes connect the blood with the skin, and through these small drain pipes perspiration passes out, carrying with it the impurities that are thrown off by the blood. Should the pores of the skin be entirely closed for even a brief space of time, and the poisonous matter forced back into the circulation, instant death would result. In addition to the sweat glands, the skin is provided with certain others which pour out upon it an oily substance, keeping the skin pliable and soft and protecting it from heat and cold. The blood and skin are so closely related that whatever affects one seriously interferes with the functions of the other. Not only health, but life itself, depends upon perfect harmony between the blood and skin. When, therefore, the blood becomes poisoned from any cause, it quickly manifests itself upon the skin in the form of sores and ulcers, pimples and various eruptive diseases. By the character of the sore we are enabled to determine the nature of the poison or humor in the blood, as every disease originating in the blood has its own peculiar sore or pimple. The skin is not only affected by the poisons generated in the system, but poisons from without enter through the open glands or pores and quickly infect the blood. Mercury rubbed upon the skin will produce Rheumatism, and Poison Oak and Ivy and other wild plants gain easy access to the blood through the skin. As so-called skin diseases originate in the blood, the application of powders, soaps and washes can do no permanent good, but often do immense damage by closing up the outlet to these little tubes and interfering with the natural action of the skin. The treatment must begin with the blood, and the acid or other poisons antidoted or neutralized. S. S. S. does this and purifies the circulation, builds up the blood and flushes the little glands or pores with pure, new blood, and restores healthy action to the skin. The use of cosmetics never yet brought health and beauty to a rough, red, pimply skin or sallow complexion. What is needed is rich, pure blood, such as S. S. S. makes. It not only relieves you of all disfiguring blackheads, blotches and irritating, itching eruptions, but improves your general health. S. S. S. contains no mercury, potash, arsenic or other mineral, but is a purely vegetable remedy and the safest and best in all blood and skin troubles. Write our physicians for advice or information; they have made a study of blood and skin diseases, and you can have the best medical advice without cost. Book on Blood and Skin Diseases free.

TRAVELS A MILE A MINUTE.

High Speed Reached by a Trolley Car in the Slow-Going City of Philadelphia.

In whatever other respects Philadelphia may be slow she has a trolley car which sweeps through the city in the gray hours of dawn and which, taken day by day, is swifter than anything else of its kind or class in the world. It starts from the heart of the city just after the newspapers are out of press and tears away through the silent streets in a northerly and westerly direction, up and down hill and along valleys, with occasional stops to throw out bundles until 27 minutes later it rests on the northern summit of Chestnut hill, 14¾ miles away. This is at the average rate of 35 miles an hour, including at least one stop every three-fourths of a mile, says the New York Sun.

Sometimes on its route it has run a mile in 1⅛ minutes and it has made the distance in 25 minutes, including the stops, which is just the schedule time of the steam express trains for practically the same distance between the same places, though on neither the Reading nor the Pennsylvania railways do the trains make any stops. Sometimes, as on market day, there are interruptions when sleepy teams get on the lines of metals, and occasionally another trolley car gets behind time and doesn't give it the right of way promptly, but despite the occasional delays, for two years, in all conditions of weather, facing rain or snow, with mechanical incidents adverse to its career, it has made on an average 35 trips out of 35 on time and only once has it been longer than 45 minutes in covering the distance. On that occasion the wreck of a hay wagon was on the road and for this the Eagle Flight trolley was not responsible.

From the fact that this car carries the morning newspapers for distribution it might be thought to be a journalistic enterprise in Philadelphia, but this is not the case. It is an experiment by the Union Traction company to test the maintenance of high speed and the evenness of schedule time under conditions peculiarly favorable for securing exact factors for all the problems it is sought to solve. Every trip is observed by electrical experts, the induction is estimated, the power measured, the state of the metal, the thermometrical and barometrical conditions noted, as well as the humidity and fog at the different elevations along the line, and when 1,000 trips have been made the data thus gathered will be considered, with a view of formulating a result to be applied in such directions of economy and accelerated speeds as may be opened up.

BUILDS NEW WAR BALLOON.

English Inventor Has an Airship Which He Says Can Be Steered in Any Direction.

Dr. Barton's war balloon, which, it is said, the British war office proposes to buy, has a platform and machinery which is suspended cigar shape. The balloon can be steered in any direction. The propellers are driven by a high-speed motor between the balloon and the car.

There is a horizontal aeroplane, the fixed operation of which causes the balloon to ascend and descend in straight progress at any altitude. At the rear there is a vertical aeroplane for steering to the right and left.

The difficulty arising from moving the center of gravity is circumvented by two half-filled water tanks at each end, from which water is automatically pumped from one to the other as the end of the machine becomes heavier. The aerostat is divided into gas-tight compartments.

Dr. Barton hopes by the end of summer to float his balloon and carry three people at the rate of 12 or 13 miles an hour.

WOMAN

IS LIKE A DELICATE MUSICAL INSTRUMENT

In good condition she is sweet and lovable, and sings life's song on a joyful harmonious string. Out of order or unstrung, there is discordance and unhappiness. Just as there is one key note to all music so there is one key note to health. A woman might as well try to fly without wings as to feel well and look well while the organs that make her a woman are weak or diseased. She must be healthy inside or she can't be healthy outside. There are thousands of women suffering silently all over the country. Mistaken modesty urges their silence. While there is nothing more admirable than a modest woman, health is of the first importance. Every other consideration should give way before it. Bradfield's Female Regulator is a medicine for women's ills. It is the safest and quickest way to cure leucorrhea, falling of the womb, nervousness, headache, backache and general weakness. You will be astonished at the result, especially if you have been experimenting with other so-called remedies. We are not asking you to try an uncertainty. Bradfield's Regulator has made happy thousands of women. What it has done for others it can do for you. Sold in drug stores for $1 a bottle.

A free illustrated book will be sent to all who write to

THE BRADFIELD REGULATOR CO. Atlanta, Ga.

Strong Nerves

are the true source of good, healthy appearance.

Persons with half-starved nerves always look worried and "dragged-out."

You cannot be happy without nerve vigor; you cannot be natural without all the powers which nature meant you to have.

Sexine Pills

produce a healthful glow which art cannot imitate. They invigorate every organ, put new force to the nerves, elasticity to the step and round out the face and form to lines of health and beauty.

$1.00 per box; 6 boxes (with written guarantee), $5.00. Book free. PEAL MEDICINE CO., Cleveland, Ohio.

GLORIOUS NEWS

Comes from Dr. D. B. Cargile of Washita, I. T. He writes: "Four bottles of Electric Bitters has cured Mrs. Brewer of scrofula, which had caused her great suffering for years. Terrible sores would break out on her head and face, and the best doctors could give no help; but her cure is complete and her health is excellent." This shows what thousands have proved,—that Electric Bitters is the best blood purifier known. It's the supreme remedy for eczema, teter, salt rheum, ulcers, boils, and running sores. It stimulates liver, kidneys and bowels, expels poisons, helps digestion, builds up the strength. Only 50 cents. Sold by C. E. Holton, druggists. Guaranteed.

WINE OF CARDUI

HEALTHY OLD AGE.

LABUE, BENTON CO. ARK., Aug. 4.
I am 49 years old and have been suffering with Change of Life. I had flooding spells so bad that none thought I could live. My husband got me Wine of Cardui and it saved my life. I am like another person since taking it.
MRS. E. B. TOWNSEND.

McELREE'S Wine of Cardui

It is the devout wish of nearly all people to live to a ripe old age. None of us want to die young. This universal desire can be realized if care be taken of the health in early and middle life. A little precaution then will add many years to our existence. Death can be kept away a long time. Happy, healthy old age will be the lot of the woman who promptly corrects the ailments which afflict her sex. In youth, Wine of Cardui will take the female child safely over the dividing line between girlhood and womanhood. As a wife she needs it to help her through the trials of pregnancy and childbirth with as little discomfort as possible. At the Change of Life it will help her over the dangerous place that appears in her pathway between 40 and 50. Then will come many years of truly blissful existence. She will grow old slowly and gracefully. To the last she will preserve that charm and beauty which are always characteristic of perfectly healthy grandmothers. It is for women alone to decide whether they will be healthy or sick. The remedy for their sickness is close at hand.

MONDAY, JUNE 17.

Columbus and His Salary.

Chicago Record-Herald.

In the building known as the "Lonja." at Sevile, Spain, are preserved the archives of the Indies—the early Spanish colonies in America—from the time of their discovery until a few years ago. There is a mass of papers, books and correspondence which would fill a train of cars, and it is piled away upon the shelves without much order or system. A few indolent clerks are engaged in overhauling, aranging and indexing the papers and the Society of the Americanists has been granted permission to publish any that have an important bearing upon history. Every little while some interesting paper is discovered, copied and published in the reports of that society.

The latest discovery is the account of the payment of the crews of the caravels of Columbus upon his first voyage. The Minister of Finance in his report shows that there were 82 men under pay. Columbus himself,with the title of admiral, received a salary of $320 a year. The captains of the three ships received respectively $16, $18 and $19 a month. The sailors received from $2 to $3.50 per month including their subsistence and two suits of clothes a year.

Will Result in Good.

Concord Tribune.

Some newspapers continue to insist that those who think different from the present leaders of Democracy are traitors and Republican allies and have nothing at heart for the good of North Carolina. Because an editor or party man has the independence to think differently and speak out, these papers brand them as outsiders who desire to wreck the party and cripple its prospects. These men and papers will find, when the "rank and file" speak, that they are not the whole thing and will not make platform and name candidates. We can't all agree, but the disagreement will bring about discussion of party affairs that will result in a strong organization along lines best suited to the day and time. In the meantime those men and editors who are fighting on an independent thought and action wil continue to do a good work and the effect will be seen in future years after some of these narrow-minded fellows have fallen into line under new conditions. Let the "cussing" and the discussion go on, the result will be for the best interest of Democracy and the State. People are thinking in North Carolina and there is no use for any one man or set of men to try to subsidize the brain of the State.

HOBBY HORSES WON.

How Jim West Beat Robinson's Circus With a Merry Go-Round.

The Charlotte Observer, in speaking of a merry-go-around that is having a run there at the present time, tells of how "Col." Jim West, of this city, did up Robinson's circus.

"The merry go round on the lot in the rear of the Piedmont building has been running night and day for the past week, but has not attracted very large crowds. Time was when the sound of the merry go round organ ranked next to the music of the circus steam piano,and there clustered around the moving circle people 10 and 20 deep who struggled to ride as the music played. This was in comparatively recent years. In fact it was only about 20 years ago that a fellow named West over in Greensboro bought one of the first merry go rounds that ever came to the State and moved it from place to place in competition with Robinson's circus. This innovation caught hundreds of people everywhere who abandoned the idea of going to the circus and stayed outside to ride the wooden horses and in the minature buggies. Finally the manager of the circus bought of West by paying him a good many hundred dollars to withdraw from the competition.

The first two months a man would take the baby up in the garret and hide it if he thought his wife or the nurse wouldn't catch him at it.

ADVERTISING COMMENT.

By THE HUSTLER.

The Corset Sale is becoming livelier at Messrs. J. M. Hendrix & Co's. and will be so while their great values last. Saturday was a red letter day, and there may be others, but it will not pay to wait.

After the battle—roll call. After heavy selling—broken lots. This is the situation with the Ward Shoe Company just now, owing to the Shiney Shoe Sale. Besides cheapness in broken lots, they are offering other great values. See their latest store news today.

It doesn't matter what's the matter or whether sick or well, now is a good time to buy a few bottles of well known remedies of Messrs. Coble & Porter, on Asheboro street. It doesn't often appear in this "neck of the woods" that a druggist cuts prices, and when one does—it is best to buy him out. See their ad today.

The big-buying small-pricing plan was never more fully demonstrated than at the Bee Hive in this city just now. Mr. Forutne seems to be racing with himself to out do his former efforts in underpricing other peoples underprices, and instead of having two prices, he just cuts them in two.

'Tis a queer appetite and a queer taste that cannot be satisfied in the world of appetizing delicacies as offered by Messrs. J. W. Scott & Co. It even whets the appetite to read their ad--try it and see.

Messrs. Smith, successors to the Elite Confectionary Company, occupying the same stand, are having an increased demand for good ice creams, and soda waters, the kind that Smith makes.

PANAMA HATS SCARE.

Price Jumps to $35—Demand Enormous Everywhere.

New York Sun.

The man who bought his Panama straw hats last year was lucky, for they are practically out of the market today. Those that are to be had are held by the dealers at $35. This price is not likely to decrease.

"The South American makers are absolutely unable to meet the demand" said one of the salesmen in the largest hat store in Fifth avenue yesterday afternoon, "and for two months we have practically been uable to meet the demand for certain average sizes. These hats nave suddenly become the fashion all over the world. They are as much in demand abroad as they are here, and the scarcity is the same there. This sudden demand was too much for the makers, who have laid up no reserve stock. Now our prices are $35 for a hat that cost only three-fifths of that amount last year; and at that price they are to be had only in certain sizes. Others could not be had here at any price. We have no idea when a new supply will come in."

"Is there still a demand at those prices?" the reporter asked.

"Strong enough to sell as many as we could get hold of," said the salesman. "People are only discouraged when we tell them their size is not to be had at any price. They all seem to have so much money to spend that they never think of the fact that they're being asked to pay $35 for a straw hat.

SOUTHSIDE LAWN PARTY.

Remember the Southside Hose Company's lawn party Thursday night. Their lawn party has become as much an istitution as the company itself, and is always the biggest affair o fthe kind given in the city. Patronize it.

The event of the week—the Southside Hose Company's lawn party on the Asheboro street graded school lawn next Thursday night. Always great. Always enjoyable.

One more time and the champion ship belt is the Southsides' for good. Help them to win it by patronizing their lawn party Thursday night.

THE WEATHER.

Virginia—Showers tonight. Tuesday fair, higher temperature, fresh northeasterly winds, becoming south-easterly.

North Carolina—Showers this afternoon and in extreme eastern portion tonight. Tuesday fair, higher temperature in interior,variable winds mostly light northerly.

Greensboro—Highest temperature past twenty-four hours ending eight o'clock this morning 81, lowest 61, rainfall .63. Highest temperature on Saturday last 82, lowest Saturday night 69, rainfall Saturday .21.

Isn't it Worth 25c. To Be Cured of Constipation

People who suffer from habitual constipation with all its attendant ills, clogged stomach and bowels, sluggish liver, heartburn, indigestion, and thin and impure blood, are too apt to believe that the only remedy is violent purgatives. The contrary is the case. Such cathartics, even if they do move the bowels, are irritating and griping, leave the stomach inflamed and enfeebled and the constipated condition recurs with greater difficulty of cure and the sufferer constantly growing worse. There *is* a laxative that moves the bowels without pain or griping, cleanses the stomach, sharpens the appetite, stimulates the liver, strengthens the nerves, and purifies the blood, while its marvellous tonic properties tone up the entire system and keep it healthy.

Laxakola Does It

Its remarkable tonic properties reach every organ—the liver, kidneys and stomach, nerve, heart and brain—and removes the cause of your debilitated condition. This is the only way to secure an absolute and permanent cure.

Laxakola is the only medicine for babies, is purely vegetable and its action is gentle, speedy and effective. For coated tongue, simple fevers, colds, chills and languid feeling it is the ideal medicine.

It tastes good. ☞ *Children like it and ask for it.*

Laxakola, the great tonic laxative, is not only the most efficient of family remedies, but the most economical, because it combines two medicines, viz: laxative and tonic, and at one price. No other remedy gives so much for the money. At druggists, 25c. and 50c., or send for free sample to LAXAKOLA CO., 132 Nassau Street, N. Y., or 356 Dearborn Street, Chicago.

WANT CARS ON WEST MARKET.

MASS MEETING THIS AFTERNOON PETITIONS THE ALDERMEN.

Tyre Glenn is Chairman of the Meeting—A Petition is Largely Signed to Have the Cars Run on West Market Street.

As was noted in The Telegram Saturday, a petition was presented to the Board of Aldermen Friday night signed by nine petitioners living on West Market street, asking the Board to refuse to allow the proposed street car line to be run on the portion of said street lying between Ashe and Edgeworth streets. This petition was referred to the street committee.

This morning the engineer of the street railway company was seen staking off West Washington street, and upon enquiry being made it was learned that the company proposed to run their car line to the Normal by way of Washington street and not West Market, as they said they did not want to have a fight on their hands, and that it would cost too much for them to run their cars on West Market street without that street being graded.

This afternoon a mass meeting was held in the rear of Grissom & Fordham's drug store for the purpose of presenting to the Board of Aldermen a petition counter to the one presented last Friday night by nine petitioners. This meeting was attended by nearly all the residents and property owners on West Market street and streets adjacent thereto. Mr. Tyre Glenn was made chairman, and Mr. Calvin N. McAdoo made secretary. The object of the meeting was made known and a petition was prepared and signed be every person present. The petition is counter to the one presented to the Board at their last meeting, and which was published in The Telegram on Saturday.

The people of West Market street, to a large extent, are enthusiastically in favor of the street car line traversing that street, and would feel the loss were it not to so run. It is likely that the Board of Aldermen, at their meeting Wednesday night, wil take such action as may be necessary in order to have the street graded sufficiently so that after the car track is down, it will never be necesasry to change its bed, a troublesome and costly operation.

The nine petititoners who seemingly have caused the stir, are coming for a good share of the blame, and much comment on their conduct is being heard on the streets.

BEAUTIFUL GIFT.

Miss Mary Trotter Presented With a Gold Watch by the Stewards of West Market Church.

Yesterday morning at the conclusion of the Sunday school services in West Market street church, the pastor, Rev. S. B. Turrentine, in a short but extremely appropriate speech presented Miss Mary Trotter with a handsome gold watch, the gift of the Board of Stewards to show, in some degree,their appreciation of her valuable and faith- of Stewards unununununununununufl.ff:; ful services as treasurer of the buiding fund of the church.

The watch is a double case and the back is ornamented with fleur-de-li set with three diamonds. On the inside is engraved the words, "Miss Mary E. Trotter from the Board of Stewards of West Market Street Church, April 7, 1901."

The date, April 7, 1901, is the date of the dedication of the church, and on that day the building fund, of which Miss Trotter was the treasurer, went cut of existence, the purpose for which it had been created, having been accomplished.

THE STRIKERS TALK.

Scabs in Raleigh Want Better Food and get it—Incompetent Scab in Spencer Discharged.

The strike situation in Greensboro remains the same, the tsrikers are still hopeful and the railway men confident. The strikers report that in the Seaboard shops at Raleigh Friday afternoon, the "scabs" who took the places of the striking machinists,themselves struck,their grievance being that their food was not of good enough quality. They were out two hours, and the railway company agreed to serve them better food. They also report that in Spencer, of the imported scabs, only two remain in the shops at work, and one was discharged Saturday by the foreman because of incompetency. The strikers say they want their organization recognized.

You know St. Barnabas ladies have always entertained their friends delightfully. So be sure to be at the Rectory, North Elm street, Wednesday evening.

FIREMEN'S TOURNAMENT

President McNeill Predicts a Successful Meeting in Charlotte—The Inter-State Feature.

State Senator J. D. McNeill, of Fayetteville, president of the North Carolina State Fireman's Association, has issued the following circular to the officers and members of the Association:

"At a recent conference with the citizens of Charlotte, the dates of July 23d, 24th, 25th, 26th, 1901, were fixed upon to hold our annual convention and tournament.

'I take pleasure in assuring our membership that they can rely and depend upon receiving from our hosts a genuine Charlotte welcome.

"To those who have never attended such an occasion in Charlotte, let me say that it simply means that everybody will have a good time or else it will be their own fault. The Charlotte folks never do things half way. The railroad rates will be low. The local rates will be satisfactory. All apparatus will be transported free both ways, and the prizes will be as large as ever before. It is especialy to be desired that the attendance this year exceed that of any previous year. Under no circumstances must we allow our organization to go backward. There will be an inter-State feature similar to the one last year in Wilmington, and the memberships of the South Carolina Association have personally assured me that they will all be there.

"Let every company and team in the State be on had and we can then report to our South Carolina brethern what the Governor of North Carolina once said to the Governor of South Carolina. Please write to either the secretary or to myself for any information that you may want.

"The official programme and prize list will be sent out at an early date. Don't forget the dates. Practice up and be ond hand. Don't fail to elect your delegates at your July meeting."

GOES TO CHARLOTTE.

Mr. Wood, Cashier at Wachovia Loan & Trust Co., to be Succeeded by A. H. Galloway.

Winston Sentinel.

Mr. Word. H. Wood, who has been cashier of the Wachovia Loan and Trust Company since the bank was established nearly eight years ago, has resigned to accept the office of Secretary and Treasurer of the Southern States Trust Company, of Charlotte, organized on June 3rd.

Mr. Wood is a son of Mr. W. W. Wood, of Greensboro. Besides being a clever gentleman,he is a fine business man and thoroughly understands the duties of the responsible office to which he has been elected. He has a host of friends who will regret to see him leave Winston-Salem. His resignation goes into effect July 1. His company will open for business on July 15th.

The Southern States Trust Company organized with a paid in capital of $100,000, has the following officers: President, F. C. Abbott; Vice President George Stephens; Secretary and Treasurer, W. H. Wood.

Mr. Wood will be succeeeded by another popular and affable gentleman, Mr. A. H. Galloway, now a member of the office force of the R. J. Reynolds Tobacco Company. For several years he held a responsible position in the office of Brown Bros. Tobacco Company.

DEATH OF ANAGED LADY.

Mrs. Robert Lindsay Passes Away—Funeral Services to be Held Tomorrow.

Mrs. Robert Goodloe Lindsay died last night at eight o'clock at her home on Sycamore street. For several years she has been in poor health, and her death was due to old age. The funeral will occur tomorrow morning at ten o'clock, from the family residence, and will be conducted by Dr. E. W. Smith.

Mariana Perry Austin was born in Alexandria, Va., July 2, 1819. She was married to Capt. Robert Goodloe Lindsay at Georgetown, D. C., September 14, 1841, and lost her husband February 14, 1886.

She was a member of the First Presbyterian church and had been an acceptable member of that church for the past sixty years. She was the mother of a large family of children. He distinguishing characteristics were her devotion to duty, to her church, to her husband, her children, and to humanity.

Mr. John Tate, of Charlotte, Mr. Geo. Tate of McAdensville, and Miss Annie Sloan, of Reidsville, have arrived to attend the funeral.

THE BANKERS TO MEET.

Those Who Will Represent the Greensboro Banks in Asheville.

The Fifth Annual Convention of the Banker's Association will meet in Asheville at the Battery Park Hotel June 20th and 21. Invitations to be present have been extended the bankers in North and South Carolina, Georgia, Tennessee, Virginia, and Northern cities.

Those who will go from the Greensboro Banks are Cashier R. G. Vaughn, of the Southern Loan & Trust Company, who will be accompanied by Mrs. Vaughn; Cashier L. H. Battle, of the City National Bank, Cashier W. E. Allen, of the Greensboro Loan & Trust Company, and President Neil Ellington of the Greensboro National Bank. The program for the meeting is a follows:

BUSINESS SESSIONS.

Thursday, June 20th, 10: a. m.; Thursday, June 20th, 3 p. m.; Friday, June 21st, 10 a. m.

Prayer, Rev. J. H. Weaver.

Address of welcome: Mr. L. P. McLoud, Asheville.

Response: Mr. W. A. Blair, Vice-President People National Bank, Winston.

Reports of the officers of the association.

Addresses will be delivered by Mr. R. H. Edmonds, editor Manufacturers' Record,Baltimore; Mr. Hartman Baker, Cashier Merchants National Bank of Philadelphia; Mr. W. T. Old, Cashier First National Bank, Elizabeth City; Hon. R. B. Glenn, Winston; Mr. L. P. Hillyer, Cashier American National Bank, Macon, Ga., and Secretary Georgia Bankers' Association; Hon. A. E. Rankin, State Bank Examiner, Asheville.

Short talks of not over three minutes each by the delegates on existing conditions in their respective localities.

ENTERTAINMENT.

Wednesday, June 19th, 9 p. m. Reception, Parlors Battery Park Hotel.

Thursday, June 20th, 6 p. m., Trolley Ride in and around Asheville.

Friday, June 21st, 5 p. m.: Carriages to Vanderbilt's grounds, etc.

The officers of the association are:

President, James P. Sawyer, President Battery Park Bank, Asheville.

Vice-Presidents: A. G. Brenizer, Cashier Commercial National Bank Charlotte; G. N. Montcastle, President Bank of Lexington, L. H. Cutler, President Farmers and Merchants Bank, Newbern.

Secretary and Treasurer: John M. Miller, Jr., Cashier Merchants and Farmers National Bank, Charlotte.

Executive committee: Composed of officers with Joseph G. Brown, President Citizens National Bank, Raleigh; C. N. Evans, Cashier Bank of Reidsville; H. L. Hunt, Acting Cashier Atlantic National Bank, Wilmington; Lee H. Battle, Cashier City National Bank, Greensboro.

A False Rumor.

A rumor has been going the rounds today and yesterday, to the effect that the official board of West Market street church had petitioned the Board of Aldermen to refuse to allow the street car line to be run over West Market street. The steward's petition did not touch the matter of the street car line, but simply the trees along said street. when the street was graded. The resolution was printed in Saturday's Telegram, and is re-produced:

"Resolved that the board of Aldermen be requested to spare the trees on West aMrket sreet in grading same" Signed by the Board of Stewards of West Market street in grading same." of the board, Dr. J. E. Wyche.

Will Occur Tonight.

The Opera will be given tonight, rain or shine.

Miss Grace Clary is again in fine voice and will sing tonight in the Opera in her usual good style.

Drs. Scott, Paracelsus and Betts will be in their office at the Academy of Music tonight from 8:30 to 10:30. Be sure to give them a call.

Going A-Fishing.

The Sunday school class of West Market Street church, taught by Mr. C. H. Ireland, will go picnicking in the near future to Cardeza's pond. None but the class will be allowed to go and girls are tabooed. The feature of especial interest will be a Brunswick stew. The party will take along the bread for the stew, and will catch fish and shoot squirrels enough to furnish the necessary meat.

Death Claims Paid.

Mr. G. H .Royster, General Agent of the Endowment Rank Knights of Pythias, this morning received a couple of checks in payment of death claims, one on the life of Dr. E. R. Wright, of Wilson, N. C., and one in Birmingham, Ala.

Harry-Belk Bros. Co.

Try Domestic Finish on Your Shirts.

It will save your linen, because there is not near the pressure to get a domestic as a gloss finish. We figure it will save linen wear 50 per cent. A gloss finish looks flashy, but it has not near the refinement of our dull domestic finish. That is why careful dressers in all large places have domestic finish on their linen.

Dick's Greensboro Steam Laundry,

TO BAR JOHN CHINANAN.

United States and Canada to Unite in an Effort to Stop Unlawful Influx of the Celestials.

The United States government and the Canadian government are combining in an effort to stop the smuggling of and unlawful influx of Chinamen into Canada and the United States. Both countries have suffered within the last few years, and Canada has unintentionally helped to break the United States exclusion law.

A representative of the United States customs department is in Ottawa at present, acting in conjunction with the Canadian officers. From what has been discovered, the Canadian authorities are convinced that many more Chinamen than the law permits have come into Canada in bond for the last few years, and have then mysteriously disappeared. It is to the interest of the transportation companies to see that the law is obeyed, and therefore, the authorities say, it must have been customs officials who, through neglect or otherwise, have permitted these men to disappear. It is stated that evidence has been secured against several of these officials and that a general shake-up will soon follow.

On an average 2,000 Chinamen have been imported into Canada for the last five years. Each year about 800 of these have gone through in bond to Jamaica and other places under the padrone system. About 500 a year were entitled to stay here on paying the $100 a head tax, and the remainder should have been deported to China, but only a small percentage were so deported.

MAKING RECORD FOR ITSELF.

Splendid Work of the Hydrographic Department of Navy Gaining International Reputation.

A great number of inquiries which have recently been received from foreign navies by Capt. C. C. Todd, chief hydrographer of the navy, attest to the remarkable prestige this branch of our naval service has gained abroad. Our hydrographic service is conceded to be more advanced and complete than that of any other navy in the world, and foreign navies are endeavoring to emulate the example set by our own advance in this line. Requests for information on various points come from Spain, France, Greece and practically all of the European nations, and all proper information is given without reserve. In some cases foreign naval authorities have offered to pay for valuable bits of information, concerning a reef, perhaps, which is uncharted on their own maps, or the unknown depth of water in some channel. But all that is asked in return by the hydrographic office is that the inquirer contribute to the knowledge already in hand at Washington as far as possible. The pilot charts which are issued monthly by the office are fast gaining an almost universal reputation. They give, beside data of strictly technical nature, weather forecasts for the ensuing month covering practically the whole world.

RISEN FROM ITS RUINS.

Rapid Recovery of the City of Galveston from the Terrible Wrecking It Sustained.

Perhaps no more remarkable instance of rapid recovery from almost total wreck was ever known than that of Galveston, destroyed in the terrible flood of last September. Its dwelling houses had been swept away, and many of its most noted substantial commercial buildings were injured beyond repair. Seventeen million dollars' worth of its property was wasted at a stroke, and 6,000 of its inhabitants were slain. Yet the hapless island town found courage after the storm, and determined to live says Youth's Companion.

In seven days the railway bridge to the mainland, broken by the furious sea, was repaired and open to travel, and less than six months after the disaster not only all the railway tracks, but the wharves, elevators and warehouses had been rebuilt, larger and better and more in number than before; and the surviving islanders are housed in more than a thousand comfortable dwellings.

The terrible relics of the September tragedy have been cleared away, and industry, trade and hopeful activity of every kind are once more making busy days. A nation's sympathy and contributions have helped the people, but no less the brave, swift rally of this stricken city is a notable example of American recuperative energy and pluck. It gives the lie to the proverbial inertia of southlanders.

Plans for the future safety of the island are already forming, and will be put into effect as soon as the more immediate needs are provided for.

A sea wall may be built, or more probably, a general filling in of the land, raising the surface five or six feet, will place the new city beyond the reach of a flood from the gulf. One of its local newspapers courageously says: "Difficulties present the opportunities for great achievements, and out of the depths Galveston is struggling to her former position, and learning strength."

RULINGS OF THE COURT.

The right of a city to discharge a sewer into a tailrace belonging to an individual, where it runs through a culvert under a highway, is denied in Nevins vs. Fitchburg (Mass.), 47 L. R. A., 312.

A policy of insurance against loss or damage by windstorms, cyclones or tornadoes is held, in Holmes vs. Phoenix Insurance company (C. C. A. eighth C.), 47 L. R. A., 808, not to cover damage by hail.

Failure to enact or enforce an ordinance prohibiting the riding of bicycles on sidewalks is held, in Jones versus Williamsburg (Va.), 47 L. R. A. 294, insufficient to make a municipality liable for injury to a person struck by a bicycle ridden on the sidewalk.

A breach of promise of marriage is held in Sanders versus Coleman (Va.), 47 L. R. A. 581, to be excused when, without any fault on his part, the prospective husband has developed a grave malady of such character that marriage might endanger his life or health.

A state hospital created for purely governmental purposes under the exclusive ownership and control of the state is held, in Maia versus Eastern hospital (Va.), 47 L. R. A. 577, to be not liable for injury to an inmate by negligence of the persons in charge.

The right of a telephone company to string wires in a highway is held in Wyant versus Central Telephone company (Mich.), 47 L. R. A. 497, to include the right to do the necessary trimming of trees in the highway in a proper manner, without first giving the landowner an opportunity to do it.

An infant who has bought a bicycle on the installment plan is held, in Rice versus Butler (N. Y.), 47 L. R. A. 303, to be under obligation to account for its use and for deterioration in its value while in his possession, if he rescinds the purchase. The disaffirmance of a conveyance by an infant is upheld, in Bullock versus Sprowls (Tex.), 47 L. R. A. 326, without restoring the consideration received for the property, when it is not in his possession or control upon arriving at full age, but has been dissipated by him while still a minor.

Cost of the Queen's Funeral.

The queen's funeral cost $185,000, nearly one-third of which was for the housing and entertainment of foreign guests.

Interest Laws of China.

The interest laws of China, with which the operations of banking are intimately connected, date from the year 1250 of our era. The enormous rate of interest is curiously defended by several writers. It results, they say, in securing economy, in order that the borrower may repay the loan, in producing greater industry, in deterring persons from borrowing, in reducing the number of renters of land, thus increasing the number of land owners, and in inducing circumspection in regard to new enterprises. It is further stated by men of business that this 30 per cent. is also a maximum founded on the probability that the oscillations in the price of silver will never exceed that sum. It must be understood also that the ordinary rate of interest rarely exceeds 20 or 22 per cent., and that money may be had as low as 12 per cent., though the rate sometimes exceeds even 30 per cent.—Forum.

A LIFE AND DEATH FIGHT.
Mr. W. A. Hines of Manchester, Ia., writing of his almost miraculous escape from death says. "Exposure after measles induced serious lung trouble, which ended in Consumption. All my doctors said I must soom die. Then I began to use Dr. King's New Discovery for Consumption, which completely cured me. I would not be without it even if it cost $5 a bottle. Hundreds have used it on my recommendation and all say it never fails to cure Throat Chest and Lung troubles." Regular size 50c and $1. Trial bottles free at C. E. Holton's drug store.

THE BEST BLOOD PURIFIER.
The blood is constanly beig purified by the lungs, liver and kidneys. Keep these organs in a healthy condition and the bowels regular and you will have no need of a blood purifier. For this purpose there is nothing equal to Chamberlain's Stomach and Liver Tablets, one dose of them will do you more good than a dollad bottle of the best blood purifier. Price, 25 cents. Samples free at C. E. Holton's drug store.
If troubled with a weak digestion, loss of appetite, or constipation, try a few doses of Chamberlains Stomach and Liver Tablets. Every box warranted. For sale by C. E. Holton, Druggist.

FROM THE FATHERLAND.

Twenty-six German towns are now illuminated with actylene gas.

Berlin's park—the Thiergarten—costs the city but $45,000 a year.

In Bavaria the crown owns 3,430,000 acres, one-fifth of the entire kingdom.

Hochkonigsburg, in Alsace, the remains of an early medieval castle, is to be restored by the kaiser.

Germany has to import all her Indian corn (in 1899, 189,000,000 bushels were used), because the corn does not mature in the German soil.

In the sixteenth century it was customary in Germany to get up at five o'clock, dine at ten, sup at five and go to bed at eight.

In the Gera district, Germany, the wages of weavers last summer were only $1.90 to $3.38 per week, with which a weaver was expected to support a family, besides paying government tax and school rates.

One of the remarkable privileges of the German nobility is that of being divorced by "house law," as it is called. The latest instance of the exercise of this private power was in the case of Princess Louise Augusta of Schleswig-Holstein and Prince Aribert of Anhalt. Commoners have still to resort to the ordinary divorce courts.

WAY STATIONS.

Italian railways pay one dollar per kilo for packages stolen on the way.

Fatalities by railroad accidents in the United States last year numbered 4,109, an increase of 557 over 1899.

A western passenger agent says that his experience has shown that Friday is the best day in the week for railway passenger travel and Wednesday the worst.

Up to the present time a total of 318.61 miles of railroad tracks have been either elevated or depressed within the city limits of Chicago, eliminating 389 grade crossings, at an approximate estimated cost of $17,155,000.

The Pittsburgh Dispatch notes that 3,153 locomotives were built in the United States last year, of which 505 were sent abroad. It is of interest that British railroads bought more of the engines exported than the roads of any other country.

There is much complaint in Italy regarding a new railway arrangement by which station masters receive a certain sum with which to engage as many station employes as they deem advisable. The result is insufficient help, overwork and accidents.

MUNICIPAL MATTERS.

Chicago has 70,000 miles of telephone wire.

The new year marked the one hundred and fourth birthday of the city of Baltimore.

Kansas City, Mo., claims to have established 50 new factories in 1900.

Philadelphia's coroner held 2,679 inquests during 1900, an increase of 120 over the previous year.

The town of Glen Flora, Wis., has just been sold under foreclosure of mortgage for the sum of $2,800.

In Vermont 129 towns are without a free library, and 97 of that number have practically no public library.

Phoenix, Ariz., recently had a procession in which groups of cowboys were followed by groups of Indians, city officials and Chinese.

An experimental power garbage crematory is to be built in Chicago. The idea in mind is to ascertain whether the heat developed by burning the city's garbage can be utilized to make an adequate return upon the capital invested. This plan is in operation in several European cities of smaller size.

ENGLISH NOTES.

In the year 1600 the manufacture of silk began in England.

The notes of the Bank of England cost exactly one-half penny each.

Grosvenor square probably contains more millionaires than any equal area in London.

It is noted that more society weddings take place in London on Saturday than on any other day in the week.

While the English law provides for the organization of labor bodies it deprives them of the privileges of incorporation.

An English economist, making use of the population statistics for the last 50 years, figures out that by 1950 the population of England will have become stationary.

The British government encourages inventors and scientists by extending financial assistance to those whose work is considered of sufficient value to warrant such development. The grants are made through the British Royal society, and range in value from $50 to $2,500, according to the nature of the invention to be exploited.

CAMP-FIRE GOSSIP.

Mexico is now purchasing cavalry horses by the carload in this country.

A soldier at Spandau, bent on frightening a sentry, approached him stealthily, creeping on all fours. He jumped up suddenly, and the sentry shot him dead.

Nine ounces of sugar is the extra allowed in the British army; Russian soldiers get two gallons of beer; German, seven ounces of butter, and Spanish three pounds of salt fish.

Experiments are being carried out in the Austrian army with a new portable oven for field and transport purposes. The oven at present in use is a very unwieldy and heavy article, and has to be transported in sections. The new oven, however, may be carried intact upon a cart, and if necessary, can be utilized for baking purposes while on the march.

Ancient Pet in Ceylon.

The most curious reminder of Holland's sway in Ceylon is a living creature, a grand old tortoise supposed to have belonged to one of the Dutch governors some 200 years ago. He is very docile and ever ready to attract the attention of anyone who is likely to offer him a plantain. The tortoise is so large that he can carry several boys on his back at one time.

Southern Railway

Commanding Attention

There are several ways of getting attention.

You can attract it, draw it, plead for it, ask for it, and command it.

Which would you rather do with your printed announcement?

Everyone who makes things to sell or who does things for money, has something so say to the public.

The way that you say it is as important at least as what you say.

What you say is your part.

The way you say it is ours.

Printing that cannot be turned down, mislaid, sidetracked or overlooked is the kind we do.

It is distinguished printing—printing that not only may, but which must be seen—printing which doesn't simply ask, but which demands and commands attention.

Are not these the characteristics you want in your printing? Then come in and talk to us about the next booklet, folder, circular or other business-bringing printing thing.

The Telegram Press,

Greensboro, N. C.

TAR HEEL COUGH SYRUP. A wonderful cough remedy, made from pure tar from the pine regions of North Carolina. Positively cures coughs, colds in the chest or lungs, and incipient consumption. Always reliable. It is splendid for children, tastes good, doses are small. For sale by all druggists at 25 Cents.

TRADE MARK NO. 29191.

For Sale by Proximity Store Company.

A SPRAINED ANKLE QUICKLY CURED.

"At one time I suffered from a severe sprain of the ankle," says George E. Cary, editor of the Guide, Washington Va., "After using several well recommended medicines with out success, I tried Chamberlain's Pain Balm, and am pleased to say that relief came as soon as I began its use and a complete cure speedily followed." Sold by C. E. Holton, druggist.

A GOOD COUGH MEDICINE,

It speaks well for Chamberlain's Cough Remedy when druggists use it in their own families in preference to any other. "I have sold Chamberlain's Cough Remedy for the past five years with complete satisfaction to myself and customers," says druggist J. Goldsmith, Van Etten, N. Y. "I have always used it in my own family both for ordinary coughs and colds and for the cough following la grippe, and find it very efficacious." For sale by C. E. Holton, druggist.

Weltmerism.

New System of Drugless Healing.

If you suffer from any chronic disease, read this special offer. Prof. Gallaher, the well known exponent of "Weltmerism," the new system of drugless healing, has located in Greensboro and opened offices in the Southern Loan & Trust Building, Rooms 301-303 and in order to demonstrate quickly that he can and will cure all forms of chronic diseases and vicious habits, makes the following low rate. If you will call before June 22, 1901, you will receive free consultation and examination and can be treated for the small sum of $5 per month. There wil be no further expense connected with this treatment. You will be treated every day if necessary.

Remember this offer $5 per month, is good until June 22, only, after that date the regular rate of $2 per treatment will be charged. An invitation to call and investigate. Rooms 301-303, Southern Loan & Trust Building.

On the Corner.

Supt. Grimsley to Teach English.

On today, June 17th, the University summer term and the summer school for teachers began work for the summer. The University in thus providing instruction during the vacation period is doing a great service. The Universityclasses will be free to members of the annual school and many teachesr will gladly avail themselves of this opportunity. Superintendent Grimsley, of our city schools, will give instructions in English composition. His work in this depatment has been a taking feature at the summer school for some years.

LAWN PARTY.

Regular lawn party weather (?) but the Woman's Auxiliary of St. Barnabas church expect it to be clear by Wednesday evening.

Mr. W. S. Whedon, cashier of the First National Bank of Winterest,Iowa, in recent letter gives some experiences with a carpenter in his employ, that will be of value to other mechanics. He says: "I had a carpenter working for me who was obliged to stop work for several days on acount of being troubled with diarrhoea. I mentioned to him that I had been similiarly troubled and that Chamberlain's Colic, Cholera and Diarrhoea Remedy had cured me. He bought a bottle of it from the druggist here and informed me that one dose cured him, and he is again at his work." For sale by C. E. Holton, druggist.

When civilization really understands itself it will have homes for exonerated babies.

As far as appearances go, a woman will act more comfortably while her heart is bleeding than she does when she has a hang-nail.

"'Tis better to have and not to need than to need and not have."

Catarrh

poisons the blood, irritates the nerve-cells and causes aches and pains in the temples, eyes, brain and spinal cord. Headache, neuralgia, impaired appetite, indigestion, sleeplessness, nervous exhaustion and despondency all point to the weakened nerves that are crying aloud for renewed strength and health.

"My head was badly troubled, I ached all over and was weak and nervous. One bottle of Dr. Miles' Nervine and Dr. Miles' Pills brought me out all right." HERSHAL H. JONES, Bluefield, W. Va.

Dr. Miles' Nervine

soothes the nervous irritation, stimulates digestion and builds up health and strength. Begin to-day.
